

Question: How many points are there on the globe where, by walking one mile south, then one mile east and then one mile north, you would reach the place where you started?

Question: How long did it take you to find the answer to the above question online, copy the answer and paste it into this document?

Question: If you did not look for the answer online, why not?

Question: If you did look for the answer online, but don't want to admit it, why?

Question: Click on this website <https://library.educause.edu/resources/2020/4/higher-education-community-vendor-assessment-toolkit> Scroll down and download the Lite assessment. Read through all the questions. Then go to this website <https://www.nist.gov/cyberframework> Please identify any questions in the HECVAT Lite that map to the requirements of the NIST Security Standards.
