

2023 Challenge Puzzle

Find an investment with the following characteristics that you think would be a good opportunity for our fund:

- It should be an Israeli startup that raised less than \$10m in total
- We are agnostic on the domain
- It should not be too early - make sure they have a product and at least 10 people team in LinkedIn

Once you have identified the opportunity:

- Describe why you think it's a good investment
- Describe the main concerns that we should validate in our conversation / analysis with the startup
- Don't describe what the startup is doing, just include a link to the website

Please complete this on no more than one page with minimum 11 font size.
